JOIN THE FAMILY

Rockstar North is the award winning developer behind Grand Theft Auto 3 and the forthcoming Grand Theft Auto: Vice City. We're looking for programmers to join our experienced and highly talented teams working out of the studio in Edinburgh. For the successful candidate we offer a competitive salary and an extensive benefits package.

Audio Programmer

We are looking for an experienced Audio Programmer. You should be fluent in C and C++ with an excellent understanding of computer audio technologies, sound design and audio implementation at all levels. Knowledge of DSP and PlayStation 2 would be an advantage. A background in the games industry is not essential, however an ear for detail and a passion to extend the definition of what makes great audio in video games, is. If you believe you have the talent to contribute to an award winning team, we want to hear from you.

Games Programmers

We want to hear from games programmers from a variety of backgrounds. Commercial games experience is not essential, however a passion for games is. You should have a positive attitude and be able to communicate with people as effectively as you do a computer.

Visual Effect Programmers

We're especially keen to hear from anyone with experience or a real interest in creating visual effects for games.

Level Designers

We'd like to hear from any designer with previous experience of scripting, writing game missions and working with level editors. We would encourage any programmers interested in moving into this area of development to apply. Experience of 3DS Max would be an advantage. Please note this is not an art position.

For all applications, please provide examples of your work.
